The present Call for Proposals aims to encourage innovative SMEs to participate in transnational research activities and to enhance their competitiveness through the development of new products / services / production methods of high added value or the development of significantly improved existing products / services / production methods which are expected to be commercially exploited by the participating organisations. Furthermore, the Programme aims to promote the networking and collaboration between Cypriot and foreign organisations through the participation in transnational industrial research and development projects.

DESCRIPTION

«European Partnerships» Programme offers the opportunity to local organisations to participate in transnational research and innovation projects in sectors and thematic areas of high importance for Cyprus.
